Master Junfeng Li is one of the true Qigong masters in our lifetime. He is the moving force behind bringing Sheng Zhen Gong - The Qigong of Unconditional Love to the world. Everything about Master Li speaks of Love.

He lives what he teaches and his spirit is infectious. One always leaves changed upon meeting him and especially from attending one of his workshops. He is not only an amazing teacher but also an incredible person. To learn more about Teacher Li go to www.shengzhen.org Please join us for this special opportunity.

Within the depths of the human heart lies a paradise waiting to be experienced. It is the experience of Sheng Zhen – the experience of unconditional love. It is what every human being yearns for in their search for community, happiness, peace and contentment. It is man’s ultimate quest.

The human being can truly rest only when they have experienced the fullness of unconditional love in their heart. Often hoping to find answers to life’s questions, we look everywhere outside of ourselves to satisfy our needs. It is ironic that the very thing we are searching for is found resting in our heart.

Through the practice of Sheng Zhen Gong, the heart is opened; the experience of unconditional love becomes tangible and accessible. As the Qi flows through the body in the practice it brings about an experience of inner delight. This can only be described as being in a state of love. Slowly and naturally balance, harmony, wisdom, compassion, joy and divine inspiration characterize one’s existence. Man’s natural State. Such is the gift of Sheng Zhen.
